PROJECTS

CinemaVault | MERN STACK

- The movie management web app, CineManage, allows users to organize, track, and explore movies efficiently.
- Users can manage movie collections, view detailed film information, and discover new titles
- The app offers a streamlined interface with robust features for an enhanced movie management experience.
- Link - .https://cinemavault.vercel.app

WASTE MANAGEMENT WEB APPLICATION | React

- Our app tackles e-waste, food waste and Clothes donation simultaneously, connecting users with local e-waste recyclers and facilitating surplus food donations and clothes to those in need.
- With just a few taps, users can contribute to a greener future by easily disposing of e-waste and donating surplus food, all through our intuitive and accessible platform.
